To Whom It May Concern:

We had the pleasure of recently working with Marko Ribich and his contracting company, Golden State General Contractors (GSGC) when we hired him to implement several home improvement projects here at our residence in Encinitas. Our highly positive experience with GSGC has brought forth this letter of recommendation.

From planning, to scheduling and implementing, Mr. Ribich was detail oriented, precise and timely. He helped us manage our project budget with knowledgeable product and vendor suggestions, provided quick and alternative construction plans when we would decide on new designs, and supervised his work crew with the utmost of professionalism, assuring that each phase of our project was completed on time and with excellent workmanship. Work sites were always kept clean, organized and protected and as a homeowner that is simply a must when having major work done in your personal living space.

We continue to receive such high compliments on the improvements that have been done in our home that we will not hesitate to use GSGC again for future projects. Mr. Ribich has proven himself and his company to be intuitive, prompt and professional in all aspects of general contracting, and should be well merited. Working with GSGC has been an absolute positive experience.

Sincerely,
